

Exhausts repair set for kit Nakajima A2N3 (4003) 1/48

DS 4803

For use this set, it is necessary
to glue the air intake tubes (parts D29)
to the second side of the engine cylinder (part D18)
than as in the instructions for kit A2N3 (4003)
and putty the "rings" around the circumference
of the engine hood (parts A3, A7 and A8).

Correct positions of exhausts and intake pipes
